30th August 2017

Force Majeure declaration by INEOS Calabrian Corporation

Dear Valued Customer,

I regret to formally notify you that following Hurricane Harvey and the impacts of the extreme weather conditions, we have had to shut down our Port Neches, TX facility.

Therefore, as of August 30th 2017, due to events beyond our reasonable control, INEOS Calabrian Corporation is unable to fulfil its supply obligations for sulfur dioxide, sodium bisulfite, sodium thiosulphate and sodium metabisulfite, hereby formally declares Force Majeure in respect of our supply agreements with you.

At this time, we cannot predict the duration of the Force Majeure event but we presently estimate to be able to resume production within the next few weeks.

As a valued customer, rest assured that we are using our best efforts to try and overcome these circumstances. We will continue to keep you informed regarding progress and the likely date on which normal production will resume. Your INEOS Calabrian representative will contact you to discuss our efforts to minimize the consequences of this event on your company.

Thank you for your patience and understanding as we manage through this period of disruption.

Yours faithfully,

Ralston Skinner – Chief Operating Officer, INEOS Calabrian

On behalf of INEOS Calabrian Corporation
